February 2015 Sewer Installation Project Update

Projects 16 & 17 Hampton Oaks, Southgate, Emerald Garden, Meadowood, Hickory Grove

This is to provide you an update on sanitary sewer service installation planned for the City of Fayetteville Phase V Annexation Projects 16 & 17.

Installation in your area (identified in the enclosed maps) has been delayed and is anticipated to begin in the fall of 2015. The projects were to begin in December 2014; however, because of new paving requirements adopted by the City of Fayetteville on Nov. 24, 2014, it required installation plans to be updated and re-bid to include the new requirements.

Once the project is re-bid and a contractor is selected to install services, you will be notified and invited to attend an informational meeting where staff of the Fayetteville Public Works Commission and project contractor representatives will present details of the project that will impact your neighborhood.

Throughout the project, PWC will provide updates on the PWC website (www.faypwc.com – City Annexation>Project Updates) including the projected construction schedule by street and information about future connection and assessment.
