

Rule R8-65. REPORT BY PERSONS CONSTRUCTING ELECTRIC GENERATING FACILITIES EXEMPT FROM CERTIFICATION REQUIREMENT.

(a) All persons exempt from certification under G.S. 62-110.1(g) shall file with the Commission a report of the proposed construction of an electric generating facility before beginning construction of the facility. The report of proposed construction shall include the information prescribed in subsection (b)(1) of Rule R8-64 and shall be signed and verified by the owner of the electric generating facility or by an individual duly authorized to act on behalf of the owner for the purpose of the filing.

(b) Reports filed on behalf of a corporation are not subject to the provision of Rule R1-5(d) that requires corporate pleadings to be filed by a member of the Bar of the State of North Carolina. Should a public hearing be required, the requirements of G.S. 84-4 and G.S. 84-4.1 shall be applicable.

(c) The owner of the electric generating facility shall provide a copy of the report of proposed construction to the electric public utility, electric membership corporation, or municipality to which the generating facility will be interconnected.

(d) The owner of the electric generating facility shall file **an original and 30 copies** of the report of proposed construction with the Chief Clerk of the Utilities Commission. No filing fee is required.

(e) Upon the filing of a report of proposed construction, the Chief Clerk will assign a new docket or sub-docket number to the filing and will deliver 16 copies of the report of proposed construction to the Clearinghouse Coordinator of the Office of Policy and Planning of the Department of Administration for distribution by the Coordinator to State agencies having an interest for information only.

(f) The Commission may order a hearing on the report of proposed construction upon its own motion or upon receipt of a complaint specifying the basis thereof. Otherwise, no acknowledgment of receipt of the report of proposed construction will be issued nor will any other further action be taken by the Commission.

Rule R8-66. REGISTRATION OF RENEWABLE ENERGY FACILITIES; ANNUAL REPORTING REQUIREMENTS.

(a) The following terms shall be defined as provided in G.S. 62-133.8: “electric power supplier”; “renewable energy certificate”; and “renewable energy facility.”

(b) The owner, including an electric power supplier, of each renewable energy facility, whether or not required to obtain a certificate of public convenience and necessity pursuant to G.S. 62-110.1, that intends for renewable energy certificates it earns to be eligible for use by an electric power supplier to comply with G.S. 62-133.8 shall register with the Commission. The registration statement may be filed separately or together with an application for a certificate of public convenience and necessity, with a report of proposed construction by a person exempt from the certification requirement, or by an electric power supplier with a compliance plan under Rule R8-67(b) if the facility is owned by the electric power supplier or under contract to the electric power supplier as of the effective date of this rule. All relevant renewable energy facilities shall be registered prior to the electric power supplier filing its REPS compliance report pursuant to Rule R8-67(c). Contracts for power supplied by an agency of the federal government are exempt from the requirement to register and file annually with the Commission if the renewable energy certificates associated with the power are bundled with the power purchased by the electric power supplier.

(1) The owner of each renewable energy facility that has not previously done so, including a facility that is located outside of the State of North Carolina, shall include in its registration statement the information set forth in paragraphs (i) through (v) and paragraph (xi) of subsection (b)(1) of Rule R8-64, a description of the technology used to produce electricity, and the facility’s projected dependable capacity in megawatts by generating unit. If the facility is not yet completed and in operation, the owner shall also file the information prescribed in paragraph (ix) of subsection (b)(1) of Rule R8-64.

(2) The owner of each renewable energy facility required to file Form EIA-923 with the Energy Information Administration (EIA), United States Department of Energy, shall include with its registration statement a copy of Schedules 1, 5, 6 and 9 from its most recent Form EIA-923 and shall file a copy of those Schedules with the Commission each year at the same time the information is provided to the EIA. The owner of a renewable energy facility that is not required to file Form EIA-923 with the EIA shall nevertheless file the information required by Schedules 1, 5, 6 and 9 with its registration statement and by April 1st of each year thereafter.

(3) The owner of each renewable energy facility shall certify in its registration statement and annually thereafter that it is in substantial compliance with all federal and state laws, regulations, and rules for the protection of the environment and conservation of natural resources. If a credible showing is made that the facility is not in substantial compliance with all federal and state laws, regulations, and rules for the protection of the environment and conservation of natural resources, the Commission shall refer the matter to the appropriate environmental agency for review. Registration shall not be revoked unless and until the appropriate environmental agency concludes that the facility is out of compliance and the Commission issues an order revoking the registration.

(4) The owner of each renewable energy facility shall certify in its registration statement and annually thereafter that the facility satisfies the requirements of G.S. 62-133.8(a)(5) or (7) as a renewable energy facility or new renewable energy facility, that the facility will be operated as a renewable energy facility or new renewable energy facility, and, if the facility has been placed into service, the date when it was placed into service.

(5) The owner of each renewable energy facility shall further certify in its registration statement and annually thereafter that any renewable energy certificates (whether or not bundled with electric power) sold to an electric power supplier to comply with G.S. 62-133.8 have not, and will not, be remarketed or otherwise resold for any other purpose, including another renewable energy portfolio standard or voluntary purchase of renewable energy certificates in North Carolina or any other state or country, and that the electric power associated with the certificates will not be offered or sold with any representation that the power is bundled with renewable energy certificates. The owner shall also annually report whether it sold any renewable energy certificates (whether or not bundled with electric power) during the prior year and, if so, how many and to whom.

(6) The owner of each renewable energy facility shall certify in its registration statement and annually thereafter that it consents to the auditing of its books and records by the Public Staff insofar as those records relate to transactions with North Carolina electric power suppliers, and agrees to provide the Public Staff and the Commission access to its books and records, wherever they are located, and to the facility.

(7) Each registration statement shall be signed and verified by the owner of the renewable energy facility or by an individual duly authorized to act on behalf of the owner for the purpose of the filing.

(8) Registration statements filed on behalf of a corporation are not subject to the provision of Rule R1-5(d) that requires corporate pleadings to be filed by a member of the Bar of the State of North Carolina. Should a public hearing be required, the requirements of G.S. 84-4 and G.S. 84-4.1 shall be applicable.

(9) An original and 30 copies of the registration statement shall be filed with the Chief Clerk of the Utilities Commission. No filing fee is required to be submitted with the registration statement.

(c) Each re-seller of renewable energy certificates derived from a renewable energy facility, including a facility that is located outside of the State of North Carolina, shall ensure that the owner of the renewable energy facility registers with the Commission prior to the sale of the certificates by the re-seller to an electric power supplier to comply with G.S. 62-133.8(b), (c), (d), (e) and (f), except that the filing requirements in subsection (b) of this Rule shall apply only to information for the year(s) corresponding to the year(s) in which the certificates to be sold were earned.

(d) Upon receipt of a registration statement, the Chief Clerk will assign a new docket or sub-docket number to the filing. The Chief Clerk will deliver 16 copies of the registration statement to the Clearinghouse Coordinator of the Office of Policy and Planning of the Department of Administration for distribution by the Coordinator to State agencies having an interest in the filing for information only.

(e) No later than ten (10) business days after the registration statement is filed with the Commission, the Public Staff shall, and any other interested persons may, file with the Commission and serve upon the registrant a recommendation regarding whether the registration statement is complete and identifying any deficiencies. If the Commission determines that the registration statement is not complete, the owner of the renewable energy facility will be required to file the missing information. Upon receipt of all required information, the Commission will promptly issue an order accepting the registration or setting the matter for hearing.

(f) Any of the following actions may result in revocation of registration by the Commission:

- (1) falsification of or failure to disclose any required information in the registration statement or annual filing;
- (2) failure to remain in substantial compliance with all federal and state laws, regulations, and rules for the protection of the environment and conservation of natural resources;
- (3) remarketing or reselling any renewable energy certificate (whether or not bundled with electric power) after it has been sold to an electric power supplier or any other person for compliance with G.S. 62-133.8 or

for any other purpose, including another renewable energy portfolio standard or voluntary purchase of renewable energy certificates in North Carolina or any other state or country, or offering or selling the electric power associated with the certificates with any representation that the power is bundled with renewable energy certificates; or

(4) failure to allow the Commission or the Public Staff access to its books and records necessary to audit REPS compliance.
