*Distinguished
Budget Presentation
Award*

PRESENTED TO

**Fayetteville Public Works Commission
North Carolina**

For the Fiscal Year Beginning

July 1, 2019

Christopher P. Morill

Executive Director

The Government Finance Officers Association of the United States and Canada (GFOA) presented a Distinguished Budget Presentation Award to Public Works Commission of Fayetteville, North Carolina for its annual budget for the fiscal year beginning July 1, 2019.

In order to receive this award, a governmental unit must publish a budget document that meets program criteria as a policy document, as an operations guide, as a financial plan, and as a communications device.

The award is valid for a period of one year only. We believe our current budget continues to conform to program requirements, and we are submitting it to GFOA to determine its eligibility for another award.

RE: Fiscal Year 2021 Approved Budget

Pursuant to Article 3 of North Carolina General Statute 159, The Local Budget and Fiscal Control Act, and under my designated authority as the Fayetteville Public Works Commission's (FPWC) Budget Officer, herein I present the approved budget for FPWC for Fiscal Year 2021 (FY 2021).

In the development of this approved budget, FPWC staff used as its guiding principles the Commission's Strategic Plan. Specifically, we focused on the following strategic priorities and goals:

- Provide quality and reliable utility services to our customers.
- Ensure that we offer the lowest responsible rates to our customers while maintaining the financial soundness of FPWC.
- Have a top-quality workforce by investing in the education and development of our employees.
- Coordinate regional infrastructure needs in support of economic development.
- Replace and rehabilitate aging infrastructure to ensure the reliability and quality of the services provided by FPWC.
- Employ state-of-the-art physical and cyber security measures.

Additionally, the budget maintains all Commission approved reserve fund levels, as well as any statutory or other restrictions or requirements, including those included in Bond Orders.

Following, I will provide a brief summary and highlight certain initiatives contained in the approved budget that will help achieve the strategic goals set by the Commission.

Coronavirus

Throughout the nation, the short and long term impacts of the Coronavirus pandemic continue to unfold and still have many unknowns. The impacts of Coronavirus will affect the entire Fayetteville region including FPWC. For FPWC, these could impact our employees, our operations and obviously our customers. From a budgeting perspective, there could be varying impacts on revenues, operating expenses and the priority of and our ability to complete capital and maintenance projects. As supply chains get impacted, the cost and availability of supplies and goods we rely on for our operations could likewise be impacted. Any attempt to anticipate the duration and depth of these impacts would be speculative.

While we have attempted to reflect all known budgetary impacts of the Coronavirus outbreak into the FY 2021 budget, we have not made any assumptions related to unknowns. So other than the known impacts, the budget presented assumes normal operations and priorities. However, as we do with other unknowns, like hurricanes, we have been and will continue to prepare contingencies to be able to react as the actual impacts of the Coronavirus on FPWC become clearer. These contingencies can include pulling from reserves to maintain critical operations, short term deferring of some capital and maintenance projects that would not greatly impact reliability or safety and managing the filling of certain open positions. We will keep the Commission and the public updated and, as needed, will propose budget amendments for Commission consideration.

Power Supply

On November 13, 2019, after a nearly two year analysis of long term power supply options and negotiations, FPWC and Duke Energy executed the 9th amended Power Supply and Coordination Agreement (PSCA), which will result in a significant decreases in Power Supply expenses for FPWC and our customers compared to our previous agreement with Duke.

The PSCA, under which FPWC started purchasing wholesale electric from Duke Energy in July 2012, can extend until June 2042. However, the agreement has provisions for FPWC imitated terminations in 2024 and 2032. Duke does not have the same rights to terminate the agreement. The 2024 termination required FPWC to give notice to Duke prior to June 31, 2020. In 2017, in order to meet its fiduciary responsibilities, the FPWC Commissioners instructed staff to determine if the then terms and pricing of the PSCA where in the best interest of FPWC to continue to take service under beyond June of 2024. During this analysis it was determined that the current terms and pricing of the PSCA were out of line with the current and projected electric markets. Based upon this, at the Commission's direction, staff and our Power Supply consultant, GDS & Associates, explored various power supply alternatives. These alternatives included amending the current PSCA with Duke, expanding our generation at the Butler Warner Generation Plant (BWGP) and doing an RFP for a new wholesale power supply arrangement. It was determined that the best option for FPWC looking at various factors, including price, risk and volatility, was to amend the current PSCA and continue to take wholesale power from Duke.

The 9th amended PSCA included two phases of wholesale electric price reductions; the first starting in January 2021 and continuing through June 2024 and a second starting in July 2024 and continuing until the end of the Agreement. Compared to the previous terms under the PSCA, the amended terms resulted in net present value (NPV) savings of \$313 million, of which \$38 million are the result of the changes through June 2024 and the remaining \$275 million will occur due to other changes that go into effect after June 2024.

At the Commission's direction, following execution of the amended agreement in November 2019, staff modeled our revenue requirements through June 2024 so we could immediately pass those savings along to our customers. On March 11, 2020 the PWC Commissioners approved an across the board 4.7% electric rate decrease for rates effective on May 1, 2020. This decrease in rates is reflected throughout this budget.

Fleet Maintenance Fund

Starting in FY 2006, under an agreement between the City of Fayetteville and FPWC, FPWC performed repair and related administrative services for the combined City/FPWC fleet of vehicles and other motorized equipment. To facilitate the charging of services to the respective organizations and their departments, the FPWC Fleet Maintenance Fund was developed. This standalone enterprise fund allowed

for the tracking, proper allocation and charging of all expenses and revenues associated with providing fleet services to both the City of Fayetteville and FPWC.

In 2019, the City of Fayetteville entered into a contract with Vector Fleet Services to provide all fleet related repair and administrative services that had previously been performed by FPWC for the city fleet effective with the start of the FY 2020 fiscal year. As of July 1, 2019, FPWC ceased performing all fleet related services for the City of Fayetteville. To allow for a final true up, audit and ultimate closing of the fund, despite performing fleet services for only the FPWC operations, the Fleet Maintenance Fund was maintained and utilized during the entirety of FY 2020.

The final reconciliation of the Fleet Maintenance Fund between the City and FPWC was completed for FY 2019 and the fund will be closed at the end of FY 2020. For FY 2021, all fleet related expenses will be handled through the Fleet Department budget and allocated to the divisions and departments as appropriate.

Electric and Water/Wastewater Revenues

Total revenues for the FY 2021 Electric and Water/Wastewater Funds are budgeted to be \$401.9 million, which is \$2.2 million or 0.5% less than the FY 2020 budget. Compared to the total FPWC FY 2020 budget, which also included the Fleet Fund, the difference is \$7.1 million or 1.7% less.

Revenues for the **Electric Fund** are projected at \$260.0 million for FY 2021. This represents an \$14.9 million or 5.4% reduction from the FY 2020 budget. The major variance in revenues is from sales of electricity to retail customers. On March 11, 2020 the FPWC Commission approved a 4.7% electric revenue reduction recovered through rates effective May 1, 2020. Additionally, they approved that there would be no changes in revenues from electric rates effective May 2021. As mentioned above, FPWC and Duke Energy executed the 9th amended PSCA that included an estimated \$38 million in reduced power supply costs for PWC through June 2024 as compared to the 8th amended PSCA. The Commission evaluated the savings anticipated from the revised PSCA that would occur from January 2021 through June 2024 and developed a revised electric rate plan through 2024 which resulted in the approved rate action.

Revenues for the **Water/Wastewater Fund** are projected at \$141.9 million for FY 2021. This represents a \$12.8 million or 9.9% increase from the FY 2020 budget. This increase is driven primarily from increased revenues from retail and wholesale water and wastewater sales. On March 13, 2019, the FPWC Commission approved rate increases for water and wastewater that was scheduled to go into effect May 1, 2019. That action would increase overall water and wastewater revenues recovered through rates by 5.0%. The revenue increase for water service was 6.9% and for wastewater was 3.4%. However, because of the economic impact the Coronavirus pandemic was having on the Fayetteville Area and our customers, the Commission voted on April 8, 2020 to delay the effective date of water and wastewater rate changes until June 1, 2020. The impact of this deferral is reflected in the approved budget.

Electric and Water/Wastewater Fund Expenditures

In meeting the statutory requirements for a balanced budget, total expenditures in FY 2021 for the Electric and, Water/Wastewater Funds are budgeted to be \$401.9 million, which is \$2.2 million or 0.5% less than FY 2020. Compared to the total FPWC budget, which also included the Fleet Fund, the difference is \$7.1 million or 1.7% less.

For the **Electric Fund**, FY 2021 expenditures are projected to be \$260.0 million, which is \$14.9 million or 5.4% less than in FY 2020. The main driver in the reduced expenditures is reduced Wholesale Power Supply expenses. As stated above, the 9th amended PSCA will reduce FPWC's Power Supply costs starting

in January 2021. Additionally, Power Supply expenses associated with Coal Ash are anticipated to be lower in FY 2021 compared to FY 2020. Together, these reductions are anticipated to lower FPWC's Power Supply expenses by \$8.4 million or 5.6% compared to FY 2020. Appropriations to various reserves and funds from Electric are \$8.3 million less in FY 2021 compared to FY 2020. These lower expenditures are partially offset by an increase of \$142k in non-Power Supply operating expenses charged to the Electric Fund including General and Administrative (G&A) expenses.

For the **Water/Wastewater Fund**, FY 2021 expenditures are projected to be \$141.9 million, which is \$12.8 million more than in FY 2020. The main driver of the increase compared to FY 2020 is the \$12.2 million increase in capital expenses funded through water/wastewater revenues. Also contributing to the FY 2021 increase in expenditures is an additional \$2.9 million of operating expenses charged to the Water/Wastewater Fund including General and Administrative (G&A) expenses. These increases are partially offset by \$2.2 million in lower debt payments.

City of Fayetteville Payment in Lieu of Taxes (PILOT)

In June 2016, the North Carolina Legislature amended Chapter VI of the City of Fayetteville Charter that dealt exclusively with the organization, duties and responsibilities of FPWC and its Commissioners. This amendment replaced outdated language that remained from the original 1905 Charter, identified FPWC as a Public Authority under North Carolina Law, clarified the roles and responsibilities of the Commissioners, as well as setting the basis for the annual calculation of the FPWC Payment in Lieu of Taxes made to the City of Fayetteville. Under Section 6A.16 of the amended Charter, the annual payment is 2.45% of the previous fiscal year's "Total Net Position of the Electric Fund". Based on this calculation, the payment to the City of Fayetteville for FY 2021 will be \$ 11,450,867, which is 3.2% more than what was remitted in FY 2020. Since enactment of the amended Charter, the PILOT paid to the City has increased \$2.0 million or 21% since FY 2016. Additionally, in June 2016, the FPWC Commissioners agreed to support the City of Fayetteville's economic development efforts by providing \$6.0 million over five fiscal years (2017-2021). Consistent with this commitment, \$1.2 million is included in the approved FY 2021 budget to be remitted to the City in support of their economic development initiatives. Also, not included in the above, is an additional \$85,000 which PWC, through its Community Relations budget, provides support to the City of Fayetteville public access television channel, which FPWC utilizes for our informational "PWC Connections" television program.

Divisional Operating Expenses

The table below summarizes the budgeted operating expenses (including non-CIP capital) for each FPWC division. Following the table are the main drivers in the overall budget, as well as any significant variances at the division level.

Division	FY 2020 Budget*	FY 2021 Budget	% Increase/(Decrease)
Management	\$6.35 million	\$6.38 million	0.5%
Communications	\$1.48 million	\$1.50 million	1.7%
Human Resources	\$1.88 million	\$1.96 million	4.2%
Customer Programs	\$4.25 million	\$4.11 million	(3.2%)
Corporate Services	\$12.90 million	\$15.95 million	23.7%
Information Technology	\$12.40 million	\$13.51 million	9.0%
Finance	\$13.29 million	\$11.91 million	(10.4%)
Water Resources	\$43.67 million	\$42.48 million	(2.7%)
Electric non Power Supply	\$27.68 million	\$29.13 million	5.2%
Total w/o Power Supply	\$123.9 million	\$126.93 million	2.4%

Electric Power Supply	\$150.34 million	\$141.93 million	(5.6%)
Total FPWC	\$274.24 million	\$268.86 million	(2.0%)

* The numbers shown for the FY 2020 Budget include transfers and budget amendments made during the fiscal year

The overall \$5.4 million decrease in the Division Operating Expenses is being driven by a \$8.4 million reduction in anticipated Wholesale Power Supply costs. As previously mentioned, FPWC negotiated a revision to our Power Supply Agreement with Duke Energy. That revision will provide PWC with savings starting in January 2021. Those savings combined with lower Coal Ash costs result in a budgeted 9.0% reduction in Power Supply costs compared to last year. Those savings are offset by increases primarily in Corporate Services and non-Power Supply electric.

The \$3.1 million increase in Corporate Services is driven by \$4.1 million in Operating Capital to do a major version upgrade the Customer Care and Billing (CC&B) software that is part of our Oracle Enterprise software. The current version of the CC&B software is original from the initial conversion to Oracle started in FY 2012. Our current version will soon have reduced support from Oracle which will increase potential future security risks if not upgraded.

The \$3.0 million increase in non-Power Supply electric expenses is being driven by \$2.0 million required to overall a gas turbine at the Butler Warner Generation Plant (BWGP). Under the revised Power Supply Agreement, Duke Energy retains certain dispatch rights to BWGP. In order to meet the long-term obligations under the agreement, FPWC will be performing various planned inspections, upgrades and repairs to the plant.

Personnel Funding

Included in the FY 2021 budget are 10 additional positions. These positions are in Information Technology (3), Water Resources (4) and Electric Construction (3). The positions in Information Technology are for quality control and testing which are needed as we do the various upgrades and version updates to our Oracle Software. In Water Resources, positions were added to support the added maintenance responsibilities associated with the infrastructure that has been installed associated with Phase V Annexation. The positions in Electric are to provide an additional underground maintenance crew to support the increased replacements and upgrades needed to maintain reliability.

The last time FPWC did a comprehensive salary review was in FY 2017. Following that review, grade levels and salary ranges were adjusted appropriately. Typically, FPWC completes a comprehensive salary review every 3-5 years. In the years where a comprehensive review is not done, which is the case for FY 2021, we follow an industry best practice to identify several benchmark positions throughout the organization and complete a targeted review as a proxy for the overall FPWC labor market. This targeted review is then compared with various cost of living and inflation indexes through which the targeted performance increases, as well as salary grid positioning, are determined. Based upon this review, the FY 2021 budget reflects a targeted 3.0% performance increase for employees, which includes a 2.0% increase in the salary grids. These are the same increases that were approved by the Commission for the FY 2020 budget.

We do not anticipate having any significant changes to our benefit programs during FY 2021. Our wellness initiatives, including our “Know Your Numbers” medical screening, cross-fit, exercise and other wellness classes, continue to improve employee wellness and help keep changes in medical benefit expenses well below our peers. For FY 2021, we are budgeting \$8.4 million for active employee medical benefit expenses which are essentially flat compared to FY 2020.

Capital Improvement Program (CIP)

The total approved CIP budget for FY 2021 is \$127.2 million, which represents a \$14.9 million or 10.5% decrease from the \$142.1 million budgeted in FY 2020. However, the projected FY 2021 CIP spend is \$12.0 million more than the \$115.2 million that was projected when the FY 2020 budget was approved last year. FPWC analyzes and reprioritizes our CIP projects annually, which can result in variations in year to year CIP spending as well as variances from amounts projected to be spent in future years. There are several specific projects/initiatives that drove the majority of the \$14.9 million decrease in FY 2021 as compared to the FY 2020 budget as well as the \$12.0 million variance from the FY 2021 plan developed last year. Two one-time construction projects started and scheduled to be near completed during FY 2020 contributed to over 57% of the FY 2021 decrease in CIP spending. The combination of the Fleet Bay Expansion and Back-up Emergency Operations Center impacted the FY 2020 CIP by \$9.1 million. In FY 2021, we are projecting that just \$0.6 million will be needed to complete these two projects.

In the Electric Division, the overall FY 2021 CIP spend is projected to be \$36.6 million. This is \$4.2 million less than the FY 2020 CIP budget, but is \$3.5 million more than was projected to be spent in FY 2021 when the FY 2020 budget was approved last year. The most significant variance was an anticipated decrease in projects where FPWC is required to relocate our facilities due to NCDOT road projects. In FY 2021 we anticipate spending \$10.8 million less than in FY 2020 primarily due to having most of the Raeford Rd. relocation project completed. This nearly \$21.9 million multiyear project will spend an estimated \$13.0 million in FY 2020 compared to \$2.0 million in FY 2021. The most significant increase in CIP spending, compared to what was projected last year is related to investment in the Butler Warner Generation Plant (BWGP). As a result of the previously mentioned amended PSCA, PWC will continue to operate the BWGP after June 2024. As part of the analysis of our power supply options, we had various inspections of the generating equipment at BWGP completed to determine the short term and long term viability of the various components. Those inspections determined that certain capital investments were required to extend the life of the plant. Included in the CIP is \$5.0 million for both FY 2021 and FY 2022 to replace the boiler tubes in the steam generating section of the plant that are at the end of their useful life.

In the Water/Wastewater Division, the overall FY 2021 spend is projected to be \$89.0 million. This is \$0.7 million less than the FY 2020 CIP budget, but is \$8.2 million more than was projected to be spent in FY 2021 when the FY 2020 budget was approved last year. Improvements at our water and wastewater plants are the main driver in the \$8.2 million increase in what was originally projected to be spend in FY 2021. Not included in last year's FY 2021 projection is \$2.9 million in reliability improvements at the Glenville Lake Water Treatment Plant which is part of an overall \$6.7 million two-year project to improve the chemical feed and filter control processes. At the Rockfish Creek Water Reclamation Facility, \$2.5 million is required to replace the emergency generator at the plant that failed this past winter. Also at the Rockfish facility, \$1.9 million is needed to replace and improve the screening facilities and associated grit chamber at the plant.

CIP Funding

Funding for the CIP budget comes from the operating revenues of the respective Electric and Water/Wastewater Funds, bonds, state and other loans, as well as reserves. These reserves include various Capital Project Funds approved by the Commission and other restricted funds such as dollars collected from customers for FPWC's compliance with North Carolina's Renewable Energy Portfolio Standards (REPS). Customer contributions that are collected in association with capital projects are included as a line item in the Electric and Water/Wastewater Fund revenues portion of the budget and are likewise included within those funding sources below.

Funding Source	Amount
Electric Fund	\$30.6 million
Water/Wastewater Fund	\$34.0 million
Bonds/State Loans/Reserves	\$62.6 million

Of the bond, loan and reserve funding above, \$55.6 million is for water and wastewater projects and \$7.0 million is for electric projects. The above allocations do not reflect any reimbursements from third parties including insurance, FEMA, NCDOT or customer contributions towards projects. These reimbursements are included as revenues in the appropriate funds rather than as a reduction in CIP spending from those funds.

CIP Project Priorities

The FY 2021 CIP budget continues the Commission's focus on the replacement and rehabilitation of aging infrastructure to ensure that system reliability is maintained while at the same time making sure that we design our systems to support system growth and economic development. The FY 2021 CIP budget contains \$112.6 million for projects that expand plant capacity, replace or rehabilitate aging infrastructure or extends service to new customers. This represents a 9.3% increase over FY 2020. This includes \$19.0 million for rehabilitation of existing water and wastewater infrastructure and \$7.7 million in water and wastewater plant improvements and capacity expansions. In addition, \$19.5 million is budgeted for water/wastewater system improvements and pipe replacements which includes \$5.6 million for the Rockfish basin peak flow mitigation project and \$8.4 million for the multiyear \$24.3 million project to construct a new large diameter wastewater outfall along the Rockfish Creek to support customer growth in the western region of the City of Fayetteville.

In addition to the \$5 million previously mentioned for the life extension project at the Butler Warner Generation Plant, the FY 2021 CIP budget for Electric includes \$9.2 million for substation upgrades and rebuilds and \$11.2 million for other electric system improvements. Included in the \$11.2 million system improvement budget is \$2.5 million for underground infrastructure replacement, \$1.0 million for overhead replacements and \$1.5 million for the ongoing project to replace aging wood sub-transmission poles with more resilient and hurricane resistant steel poles.

Also, to leverage the FY 2020 investment made in the electric Outrage Management System (OMS), FPWC is also increasing funding in distribution system automation. This investment will automate the operation of electric system switches and controls to reroute power during outages and other emergencies, without the need for human intervention. This will increase system reliability while at the same time decrease outage durations.

City of Fayetteville CIP Supported Projects

There are various CIP projects that either directly or indirectly support initiatives undertaken by the City of Fayetteville. These projects include streetscape projects, city-initiated road projects and work associated with storm water improvements. In FY 2021, \$1.3 million is budgeted for such projects. City and FPWC staffs work closely together to coordinate efforts to allow for the smooth and efficient completion of these projects.

Not included in the above is the extension of water and sewer service to previously unincorporated areas of Cumberland County annexed into the City of Fayetteville. In 2008, the City of Fayetteville and FPWC entered into an agreement to extend water and wastewater service to those residents which did not already have service provided by FPWC or another utility. This project, commonly known as Phase V, when

completed, will extend FPWC wastewater service to over 8,500 properties and water service to nearly 500 properties. FPWC is roughly 65% complete extending services to the annexed areas completing work in 23 out of a total of 34 separate areas by the end of FY 2021. Of the total properties to be served, 85% are either completed, in construction, in pre-bid stage or in design. In FY 2021, we have budgeted \$33.8 million for annexation related work which is broken down into the following areas:

- Construction in Wells Place (Area 23 Section I) is nearing completion
- Starting construction in Rayconda, Cliffdale Estates, and Lake Rim Estates (Area 23 Section II, Area 24 Section A, and Area 25)
- Bid and start construction on Kings Mill, Village Hills, Wendover, Hickory Run, Pinecrest Park, Stoney Point, King Road, and Pine Ridge Acres (Area 24 Section B/C and Area 32 East Section)
- Complete design, advertise, and receive bids for Cliffdale West, Woodmark, Cliffdale Forest, and portions of Stoney Point and Dundle Roads (Area 26, Area 27, and Area 32 East Section II)
- Issue RFQ, approve Service Agreement for Cliffdale West, Montibello, Farrington, Lake William, Tunbridge, and Raeford Road Estates (Area 28, Area 29, and Area 33 North)
- Design will also be ongoing in Westhaven, Springfield Crossing, Barefoot Road, Porter Place, Winbury, Kingswood, Fairfield (Area 32 North, Area 32 South, Area 32 Outfall and Area 34)
- Construction will be ongoing in those areas that are part of the NCDOT Outer Loop and Gillis Hill Road Contracts

Net Position and Cash Reserves

The FY 2021 budget will allow FPWC to maintain the levels of reserves needed to achieve the Commission approved levels of days cash on hand and debt service coverage. Projected year-end balance levels in reserve funds such as the Coal Ash Reserve, Rate Stabilization Fund, Phase V Annexation Fund and the NCDOT Capital Projects Fund are such that FPWC will be able to meet our current and future obligations planned for those funds. These levels will also allow FPWC to meet/exceed our Charter requirements for cash reserves, as well as all Bond covenants and other financing requirements.

Budget In Brief

Public Works Commission

The total amount of the PWC budget is \$401,929,300, representing a decrease of \$7,063,650 or 1.7% from FY 2020.

ELECTRIC FUND

The Electric Fund is used to account for the provision of electricity to the residents, businesses and industry of the City of Fayetteville and surrounding urban areas. The activities necessary to provide electric services are accounted for in this fund, including, but not limited to administration, operations, maintenance, financing and related debt service, and billing and collection.

Revenues

The Electric Fund operating revenues for FY 2021 are budgeted at \$233,649,200. This represents an \$1,469,600 or 0.6% decrease in total revenue compared to FY 2020. The decrease is due to a new agreement with Duke Energy Progress that will result in lower expense for PWC. These savings have been passed to rate payers through lower rates for FY 2021. Other drivers include lower interest on investments due to the economic environment during the COVID-19 pandemic in FY 2020. The Electric Fund revenues are budgeted using the rate published as of May 1, 2020.

Expenditures

The total expenditures in the Electric Fund are budgeted at \$225,594,600 excluding capital. Operating expenditures in the Electric Fund decreased by \$14,935,350 or 6.2%, compared to the FY 2020 budget. The primary drivers of the decrease year over year are the \$8,408,200 or 5.6% decrease in wholesale power supply cost and coal ash charges from Duke Energy. Budgeted remittances to the City total \$12,650,900. Included in this amount is \$1,200,000 for Economic Development to be

determined by the City. The FY 2021 budget includes a \$250,000 appropriation to the Rate Stabilization Fund to maintain rate competitiveness.

ELECTRIC OPERATING BUDGET

Capital Improvements

The Electric Capital Improvement Budget includes generation, distribution and transmission plant additions, structural improvements, autos and trucks, construction, computer and other equipment. The recommended Electric Capital Improvement Budget is \$34,436,200. This is a slight decrease of \$6,050 compared to FY 2020. Distribution projects account for \$15.3 million dollars of the Electric Capital budget while Transmission projects make up \$5.2 million. Also included is \$6.3 million for improvements to the Generation plant.

ELECTRIC CAPITAL BUDGET

Budget In Brief

Public Works Commission

WATER/WASTEWATER FUND

The Water/Wastewater Fund is used to account for the provision of water and sanitary sewer services to the residents of the City of Fayetteville and surrounding urban areas. The activities necessary to provide water and sewer services are accounted for in this fund, including, but not limited to administration, operations, maintenance, financing and related debt service, and billing and collection.

Revenues

The operating Water/Wastewater Fund revenues for FY 2021 are budgeted at \$118,602,900. This represents a \$7,302,500 or 6.6% increase compared to FY 2020. Water and wastewater revenues are budgeted using the rate published May 1, 2020.

Expenditures

The total expenditures in the Water/Wastewater Fund are budgeted at \$100,863,000, excluding capital. This represents an increase of \$575,900 or 0.6% compared to the FY 2020 budget. The FY 2021 budget includes a \$250,000 appropriation to the Rate Stabilization Fund to maintain rate competitiveness. The Water/Wastewater Fund also includes two appropriations to Annexation Phase V, \$2,076,400 for PWC's contribution to pay for annexation costs and \$2,457,500 includes payments from assessment and interest to pay for future annexation costs. The Fund also includes a \$5,423,600 Transfer to the NCDOT Reserve to pay for present and future projects in partnership with the NC Department of Transportation.

WATER/WASTEWATER OPERATING BUDGET

Capital Improvements

The capital budget includes projects from the Capital Improvement Program that are funded from the Water/Wastewater Fund, as well as capital items in the operating budget. The recommended Water/Wastewater Fund Capital Budget is \$41,035,500. This is an increase of \$12,179,050 or 42.2%. There are projects totaling \$15,254,000 for water distribution projects and \$13,948,000 for sanitary sewer collection. The capital budget also includes \$4,428,00 for improvements at the Rockfish Treatment plant, \$3,331,000 for Computer Software and Hardware as well as \$2,026,000 for Transportation Equipment.

WATER/WASTEWATER CAPITAL BUDGET

FLEET MAINTENANCE FUND

The Fleet Maintenance Fund is used to account for the consolidated fleet functions provided to the City of Fayetteville and PWC. This fund was established in 2006. As of July 1, 2019, the City began outsourcing its fleet maintenance to a third-party vendor. Beginning with the FY 2021 Budget, the Fleet Maintenance Fund has been dissolved and the expense related to the Fleet department is now in the Electric and Water/Wastewater Funds split 40% and 60% respectively.

FY 2021 Budget Ordinance (PWCORD2020-05)

BE IT ORDAINED BY THE FAYETTEVILLE PUBLIC WORKS COMMISSION OF THE CITY OF FAYETTEVILLE, NORTH CAROLINA:

Section 1. It is estimated that the following revenues and other financing sources will be available during the fiscal year beginning July 1, 2020, and ending June 30, 2021, to meet the appropriations listed in Section 2.

Schedule A: Electric Fund

Electric Revenues	\$ 201,596,500
Operating and Other Revenues	14,500,000
BWGP Lease Payment	12,748,400
Customer Contributions	4,804,300
Budgetary Appropriations	26,381,600
Total Estimated Electric Fund Revenues	260,030,800

Schedule B: Water and Wastewater Fund

Water Revenues	51,344,500
Wastewater Revenues	52,145,800
Operating and Other Revenues	8,263,400
Customer Contributions	3,958,000
Intergovernmental Revenue - Assessments	2,891,200
Budgetary Appropriations	23,295,600
Total Estimated Water and Wastewater Fund Revenues	141,898,500

Grand Total **\$ 401,929,300**

Section 2. The following amounts are hereby appropriated for the operations of the Fayetteville Public Works Commission and its activities for the fiscal year beginning July 1, 2020, and ending June 30, 2021, according to the following schedules:

Schedule A: Electric Fund

Operating Expenditures	\$ 196,372,800
Debt Service	2,103,900
Capital	34,436,200
Payment in Lieu of Taxes - City	11,450,900
Intergovernmental Expenditure - Economic Development	1,200,000
Budgetary Appropriations	14,467,000
Total Estimated Electric Fund Expenditures	260,030,800

Schedule B: Water and Wastewater Fund

Operating Expenditures	\$ 66,614,100
Debt Service	24,041,400
Capital	41,035,500
Budgetary Appropriations	10,207,500
Total Estimated Water and Wastewater Fund Expenditures	141,898,500

Grand Total **\$ 401,929,300**

Electric Fund Summary

The Electric Fund is used to account for all revenue and expense associated with the sale of electricity.

Electric Fund Revenues

ACCOUNT/DESCRIPTION	FY 2018 ACTUAL	FY 2019 ACTUAL	FY 2020 BUDGET	FY 2021 RECOMMENDED	FY 2021 ADOPTED
---------------------	-------------------	-------------------	-------------------	------------------------	--------------------

The primary revenue source for the Electric Fund is the Sale of Electricity. Residential, Non Residential and Large User provide the bulk of this revenue. A number of assumptions were used in developing the revenue estimate for FY 2020-2021. The number of electric customers per class is based on the number of customers on hand as of September 2019, along with a 3 year average of consumption per class. There were assumptions made with the Time of Use customers that included Monthly Elasticity of Demand, Conservation and Customer Behavioral affects. The Electric Fund revenues are budgeted using the rate schedules as published as of May 1, 2020.

WATER REVENUES

WASTEWATER REVENUES

Sales of Water and Wastewater Services are the major revenue source for the Water/Wastewater Fund. The revenue is categorized by Residential, Commercial and Industrial sales. The number of water customers per class is based on January 2020. The revenues are budgeted using the rate schedules published as of May 1, 2020. The current outside city differential is 75%.

Human Resources Division

PURPOSE AND OVERVIEW

The Human Resources Division initiates and fosters collaborative partnerships that enrich the work and learning environment for PWC staff and seeks solutions in support of strategic initiatives through leadership, engagement, and innovation. In addition, the roles of Human Resources are to manage policies, processes, and procedures relative to the hiring, training, maintaining, and appropriately compensating a highly competent, diverse workforce that supports the mission, vision and values of PWC.

SUMMARY OF BUDGET CHANGES

- * Overall, the Human Resource Division Budget increased by 4.19%.
- * Operating Expenses decreased due to employee recruitment, substance abuse testing, and office furniture & small equipment.
- * Contractual Services includes funds for PA fees and medical training.
- * The Capital Budget decreased due to a Fittesting machine purchased in FY20.

Customer Programs Division

PURPOSE AND OVERVIEW

The Customer Programs Division encompasses Customer Programs Department, Development & Marketing Department and Metering Services Department. These groups, individually and in coordination with other PWC departments, help provide for a positive customer experience when dealing with PWC, ensure that PWC assets are protected, and provide innovative programs and services to meet the needs of our business and customers. Each section within the Customer Programs Division will strive to: excel at internal and external customer satisfaction through prompt and courteous service; ensure integrity through billing accuracy and identification of potential theft; and work diligently to provide for the thoughtful expansion of PWC's Electric, Water and Wastewater services, while at the same time promoting sustainability and economic development.

SUMMARY OF BUDGET CHANGES

- * Overall, the Customer Programs Division Budget decreased by 3.22%.
- * The Water Meter Shop and Electric Meter Shop budgets include Salvage Returns for meters returned to inventory. This is an accounting change from FY19.

Corporate Services Division

PURPOSE AND OVERVIEW

The Corporate Services Division is comprised of four diversified departments: Facilities Maintenance and Construction, Warehouse, Fleet Maintenance and Acquisition, and Corporate Development. Specific functions carried out by this Division are the planning, development and implementation of company-wide initiatives and special projects, technical/grant writing, organizational change management, corporate analytics and data governance, business continuity, IT business solutioning, mailroom operations, security and maintenance of all buildings and grounds, fleet management and maintenance of PWC vehicles and equipment, receiving, disbursing and surplus of materials and vehicles.

SUMMARY OF BUDGET CHANGES

- * Overall, the Corporate Services Division Budget increased by 23.73%.
- * The Fleet Maintenance Fund was combined with the Fleet Maintenance cost center for FY21.
- * Management Consulting increased in Facilities Maintenance to develop an overall space program for all PWC sites.
- * The Capital Budget includes funds for software upgrades for GIS, CC&B, RNI, MDM, fleet management, and HR recruitment applications, vehicle and equipment replacements for the Warehouse, and several structural improvements for Facilities.

Information Technology Division

PURPOSE AND OVERVIEW

The Information Technology Division is comprised of four cost centers: Information Technology Administration & Support, Information Technology Infrastructure, Information Technology Applications, and IT Development & Operations. Specific functions carried out by this Division are telecommunications including telephone, radio, fiber optics, and computer systems including hardware, software, programming, reliability and cyber security.

SUMMARY OF BUDGET CHANGES

- * Overall, the Information Technology's budget increased by 9.01%.
- * Personnel Services includes three additional positions and reflects division reorganization.
- * Operating Services increased due to higher estimates for Computer System Contracts, Computer Equipment & Supplies, and Employee Education.
- * The Capital Budget includes funds for monitoring & IVR solutions; mail archive, security, and inventory software; and various other software and hardware upgrades.

Financial Division

PURPOSE AND OVERVIEW

The Financial Division is responsible for Accounting, Customer Accounts, Legal, Internal Audit, Financial Planning, and Purchasing. Some specific functions of these departments are Payroll, Accounts Receivable, Risk Management, Environmental Compliance, Property and Right of Way Management, Collections, Capital Projects, Budget, Rates and Purchasing.

SUMMARY OF BUDGET CHANGES

- * Overall, the Financial Division Budget decreased by 10.37%.
- * Personnel Services variances reflect the effects of the Division reorganization.
- * Contractual Services includes funds for ROW consulting, real estate services, SPCC PE regulatory requirements, hazardous waste disposal and cleanup, and the replacement of the water model.
- * Budget changes are affected by COVID-19 emergency response costs.

* CONTRACTUAL SERVICES BUDGET IS \$413,200 TO THE ELECTRIC FUND AND \$488,200 TO THE WATER FUND.

Water Resources Division

PURPOSE AND OVERVIEW

The Water Resources Division is responsible for the design, construction, operation and maintenance of water treatment and wastewater treatment plants as well as collection and distribution facilities.

SUMMARY OF BUDGET CHANGES

- * Overall, the Water Division Budget increased by 2.73%.
- * Personnel Services increased due to the addition of 6 new positions in Water Construction, Engineering and Watersheds.
- * Contractual Services includes funds for consulting in relation to PCCP transmission main, GAC system effectiveness study, and Water/Sewer system asset management plans.
- * Contractual Services includes funds for a GE Multilin Upgrade.

Electric Systems Division

PURPOSE AND OVERVIEW

The Electric Systems Division is responsible for the electric system facilities, operations and performance including generation, transmission and distribution of power. This division is also responsible for the design, construction, maintenance and operation of the generation plant, transmission plant and distribution plant facilities.

SUMMARY OF BUDGET CHANGES

- * Overall, Electric Systems Division Budget decreased by 3.91%.
- * Personnel Services includes 3 new positions in Electric Construction offset by one retirement that will not be replaced in FY21.
- * Power Supply costs decreased \$14.1m which reflects lower costs from Duke through newly negotiated contract and lower coal ash expenses.
