

COMMUNITY SOLAR RIDER

AVAILABILITY Available throughout the electric service territory served by the Public Works Commission in accordance with the Commission's established Service Regulations and Charges.

APPLICABILITY Customer must have and maintain during the term of Customer's enrollment in the Community Solar program an active account to purchase metered electricity from the Commission, and Customer must execute an Enrollment Agreement in order to participate in this program.

RENEWABLE ENERGY CERTIFICATES All renewable energy certificates (RECs) and all other environmental attributes (including but not limited to "green tags") associated with or derived from the electricity generated by the solar panels that are subject to this Community Solar Rider and all of the economic and contractual rights associated with such RECs and other environmental attributes shall be retained by and belong exclusively to the Public Works Commission and may be used and retired by the Public Works Commission at its discretion for purposes of complying with G.S. 62-133.8, as amended.

DEFINITIONS

- A. Bill Credit** is a monthly credit that will be applied to the Customer's PWC invoice during each whole month of the subscription period for each solar panel to which the Customer has subscribed.
- B. Enrollment Fee** is the initial sign-up charge assessed to the Customer, calculated based upon the number of solar panels to which the Customer is subscribing.
- C. Subscribing or Subscription** means the contractual arrangement by which the Customer licenses the right to use one or more solar panels under the Community Solar Rider solely for purposes of determining the Enrollment Fee owed by the Customer to PWC, the monthly Bill Credit owed by PWC to the Customer, and the monthly Subscription Fee owed by the Customer to PWC, provided that all such fees and credits shall remain subject to adjustment by the Commission from time to time after the first year following the initial Effective Date of this Rider.
- D. Subscription Fee** is a monthly charge that will be applied to the Customer's PWC invoice during each whole month of the subscription period for each solar panel to which the Customer has subscribed.

CS Rider (Rev. 1)

For Service and Consumption Starting: January 2021

Effective: January 1, 2021

Adopted: September 11, 2019

COMMUNITY SOLAR RIDER

ENROLLMENT An enrolling Customer may subscribe to as few as one solar panel and as many as the maximum number of solar panels specified below for the applicable Customer Category. Subscriptions to solar panels are available on a first come, first served basis. A Customer must execute an Enrollment Agreement in order to subscribe to any solar panels and participate in this program. The enrollment fee will be charged to the Customer’s Account on the bill when the subscription begins. The Enrollment Fee is non-refundable. Each enrolling Customer may cancel the Customer’s enrollment in the Community Solar program upon delivery of written notice of termination to the Public Works Commission at any time. If an enrolled Customer moves to a new service address at which electricity is purchased from the Public Works Commission and the Customer stays within the same Customer Category, the Customer may transfer the Customer’s enrollment in the Community Solar program to the new service address at no charge by giving prior written notice to the Public Works Commission of the account number(s) enrolled in the Community Solar program, the date of the move, the old Premises street address, and the new Premises street address. If an enrolled Customer transfers ownership of the Premises for which the enrollment was established, but does not transfer the enrollment to the Customer’s new service address within the Public Works Commission’s service territory, then the enrolled Customer may assign the enrollment to the new owner of the Premises for which the enrollment was initially established at no cost by giving prior written notice to the Public Works Commission of the proposed date of the transfer, the full names of the transferor Customer and the transferee Customer, the transferor’s account number, and the street address of the Premises for which the enrollment is proposed to be transferred. All panels to which Customers have not subscribed by January 1, 2020 and all panels that have been the subject of an enrollment termination will be reallocated for subscription by any eligible Customer without regard to category, subject to the Per Customer Maximum amounts set forth below.

PANEL ALLOCATIONS

<u>Customer Category</u>	<u>Per Customer Maximum</u>	<u>Category Allocation</u>
