The Bid Opening Date (Submission Deadline) has been extended till Wednesday, August 16, 2023 at 2:00 PM EST.

3. Following are questions received about the solicitation and the SME's answers to the questions.

Question Number	Section	Question	Answer
1	Attachment B: Pricing Form	For clarity as to how you want pricing submitted . . . Do you want us to copy this form and submit a bid on a per transformer basis (ie. several bid forms)?	See revised bid form in addendum.
2	Attachment B: Pricing Form	It is my understanding that the structure of your bid form will now be on a price per transformer basis (ie. GSU #1, 2, 3,4 6, 7, 8, and steam).	Yes. See revised bid form in addendum.

3	Terms and conditions:	What would be the best way to communicate a couple of clauses that we need to have in any contract in order to accept an order?	Please note that you can make note of it however, it is our legal departments decision to accept it. Special notes should be included in your proposal in the form of an attachment.
4	Terms and conditions:	How to submit our Limitation of Liability clause (as an exception? Addition? ) .	Please note that you can make note of it however, it is our legal departments decision to accept it. Special notes should be included in your proposal in the form of an attachment.
5	General Conditions	The "General Conditions" do seem to apply heavily toward field service personnel working at the site, and less applicable to a manufacturer. Therefore, we have few comments toward these clauses, just want to add our Limitation of Liability clause. Let me know if there are additional terms you are planning to add for a manufacturer	None at this time.
6	Quantities and Pricing	Would it be possible, with a 90 day bid validity , to state the furthest out ship date the pricing would apply to, and then negotiate an increase (if any) on future contract releases beyond that time period? It does say that the contract will be awarded for a period of one year on page 7, but would like a clearer definition of that one year period (ie. ship dates up to one year after award date? )	An index must be identified at the time of bid. Any price increase/decreases are subject to approval by both parties however, an index MUST be identified. If there are several indexes applicable to the item, please list them all. The contract period starts from the date of award.

7	General	Is there anything that could be done to accelerate your process of making the award once proposals are submitted?	Although there is nothing, we can do to expedite the approval process, PWC will work diligently as this procurement is very important and high priority.
8	General	Please advise on the determined priority of the units that will be first year, second year, and third year.	See Revised Bid Form
9	6. General terms, Article VI. Bonds and Insurance:	Is it necessary for us to have a performance bond, or is this primarily written for field service contractors?	No
