

FIRE HYDRANT WATER DELIVERY

AVAILABILITY Available throughout the territory served by the Fayetteville Public Works Commission (“PWC”), in accordance with PWC’s Service Regulations and Charges. Service is available only to those applicants having obtained prior written approval by PWC. The form for such written approval will be provided by PWC.

APPLICABILITY Applies to metered and/or estimated water service supplied from a PWC fire hydrant located near the applicant's place of usage. Water meters pursuant to bulk delivery will be installed during normal business hours only.

CHARACTER OF SERVICE The delivery rate will be from 0 to 160 gallons of water per minute as required by and controlled by the customer. The customer is responsible for furnishing all hoses and/or pipes. A 2 1/2 - inch pipe coupling with standard threads is required for interface with the meter. In those circumstances where PWC anticipates possible loss of or damage to its metering equipment as a result of theft, vandalism or extreme temperature conditions, the metering equipment may, at PWC's option, be removed and re-installed as often as daily. The basic facilities charge shall be applied for each such meter set.

Applicants applying for temporary fire hydrant meter service where permanent service will eventually be applicable shall pay the necessary fees for permanent service at the time of fire hydrant meter application.

Under special long-term use circumstances (such as road construction), the customer may apply for authorization for fire hydrant usage. Under such authorization, the customer will be required to meet all Special Use Provisions.

MONTHLY RATE The monthly rate shall be the sum of the Basic Facilities Charges and the Usage Charges.

Monthly Charge	Basic Facility Charge
Per Month	\$97.00

Unit of Measurement	Per Gallon Charge
Per Gallon	\$0.00370

CONTRACT PERIOD The contract period shall be the period from the time the meter is initially installed on the fire hydrant until the time the applicant requests service to be

SCHEDULE FHWD (Rev. 25)

FIRE HYDRANT WATER DELIVERY

(continued)

discontinued. Fire Hydrant Water Delivery is limited to a contract period of thirty (30) days per occasion, except under Special Use circumstances.

SPECIAL USE PROVISIONS

1. All tank trucks utilized in the transport of water from a fire hydrant shall be inspected and adequately air-gapped and/or protected from cross connections. Those trucks equipped with a backflow preventer shall be inspected monthly by PWC personnel to ensure proper operation.
2. Dates and volumes of water obtained from a fire hydrant shall be recorded and reported to the Public Works Commission System Protection Office on Monday morning of each week, in the event of a holiday, on the next following business day. Failure to accurately report water usage may result in the revocation of authorization and forfeiture of deposit.
3. Hose connections shall not be allowed to remain on any fire hydrant. All hoses must be removed after each tank filling.
4. Only approved fire hydrant wrenches shall be permitted to be used to open and close fire hydrants.
5. A copy of the approval authorization shall be kept in each truck, which has been permitted to obtain water from a PWC fire hydrant.
6. Any damage or destruction of meter(s) will be paid for by user.

DEPOSIT The deposit required shall be \$500.

WATER SHORTAGE ORDINANCE Should PWC's General Manager declare/proclaim a water shortage, this rate is subject to change by adding 15% to the rate.

PAYMENTS All bills shall be paid in accordance with the terms of the Service Regulations and Charges.
