

Fayetteville Public Works Commission
Electric Rate Schedule MPS
Medium Power Service

R.B.3

AVAILABILITY

Available throughout the territory served by the Fayetteville Public Works Commission (“PWC”) in accordance with PWC’s established Service Regulations and Charges.

APPLICABILITY

Applicable to electric service for nonresidential uses where the contracted or metered demand exceeds 30 kW but does not exceed 1,000 kW more than twice in a calendar year. Metered billing demand, for purposes of determining the applicability of this rate schedule, shall be computed on the basis of the highest fifteen (15) minute aggregate demand measured each month by the billing meter installed by PWC at the point of delivery for the Customer and the non-billing meter installed by PWC on the Customer’s side of the point of delivery to measure the output of all customer-owned generation, including but not limited to peak shaving generation and generation from qualifying facilities, but excluding generation used solely for emergencies in compliance with the operational limitations and emissions limitations established by the applicable North Carolina Department of Environmental Quality air permit. Customer Peak Demand shall be the greater of: (i) the Customer’s highest fifteen (15) minute metered demand recorded during the relevant month; or (ii) the Customer’s contracted demand. In accordance with PWC’s Service Regulations and Charges, PWC may change the Customer’s rate classification.

CHARACTER OF SERVICE

Service shall be single-phase or three-phase, sixty hertz alternating current at PWC's standard available voltages except as provided for in the Service Regulations and Charges. Service shall be provided at a single point of delivery through one meter.
