Commissioner Porter commended the financial staff on receiving the Distinguished Budget Presentation Award and the Certificate of Achievement for Excellence in Financial Reporting (FY22 and 23), both awarded by the Government Finance Officers Association.

He then asked for an example from the past of an unplanned event. Mr. Bryant responded an unplanned event would be during storm season when we have to respond here or by supporting mutual aid when we sent crews to the western part of the NC or to SC. Outside of the weather, other unplanned activity is as we build our reserves to respond to our primary power supplier, Duke, if there are fuel costs that exceed what we have in the plan we have to look to our rate stabilization fund to address those unplanned activities. He stated on the water/wastewater side if we have an incident at one of our water or wastewater treatment facilities where equipment fails prematurely we have to respond.

Commissioner Porter also thanked staff for enumerating the expenses that go into the PILOT, including additional services and contributions (to the City of Fayetteville). He also mentioned the Phase V layout and what is left to be done.

He asked Mr. Bryant and Ms. Graham what keeps them up at night. Ms. Graham responded it is the capital pressures, like regulatory expenses such as GAC and other critical projects and expenses that come up which are not discretionary.

Mr. Bryant appreciated Ms. Graham pointing out the expense of the GAC, which will be expensive to install and to maintain. He went on to mention we have to move forward with the GAC even though there may be some changes to the standard by FERC. He agrees with Ms. Graham about the cost pressures on our bonds and the CIP projects, which is why we are focused on the execution of those other projects, more importantly to help make sure as we look at the DOT projects, the electric projects, the water projects, wastewater projects, in addition to the water/wastewater core GAC to keep the water clean, we have to execute on them. He went on to state we have to drive down those costs within our C(P as we drove down the costs in our OEM. We have to make sure our contracting partners are working hand in hand with us even as they have in the past to help identify ways that we can be more effective and efficient by delivering on these projects. And again, continuing our efforts within Raleigh as we deal with the DOT and other state agencies by making sure that they know whenever they make a change to their capital plan, they retroactively impact us regarding the dollars we are also planning for. Mr. Bryant went on to state thar being subject to others and not wanting to be and trying to minimize our victimization of others' decision making is what keeps him up at night.

Commissioner Porter thanked them both for their candid answers.

Commissioner King stated he likes seeing the reduction in every division except Human Resources. He just wants to ensure with those reductions we do not have a lapse in coverage, or response to our customers. He also commented on the reduction in Legal and the contract with Duke. He also commented on the reserves and asked what the percentage we are making for it. He believes we should make at least 4%.

Mr. Bryant responded to Commissioner King's comments regarding the Duke contract and our execution on the Duke contract. He stated we have FERC attorneys in Washington, DC, and consultants with GDS, as well as our partners with ElectriCities and other agencies as we all work together in getting the most value out of our Butler Warner Generation Plant as well as ensuring we stay competitive in regards to the other electric agencies in North Carolina and within the US. Additional discussion ensued. Staff also responded to Commissioner King's inquiry into the percentage the reserves receive, which is 4%.

Commissioner Davis stated sometimes the answer may not be in the room, and you have to stir it until it comes to the top. He stated the vice-chair has asked multiple times about the interest rate we are making on the reserves. He also stated we want to be well equipped behind the changes. The more effective we are in understanding the ups and downs in the charts, the easier it is to follow the presentations and the more effective we are in giving wise counsel. After further discussion, Chairman Davis went on to entertain a motion for a public hearing the May 28th.

Commissioner Porter, motioned to set a Public Hearing on the Proposed Operating Budget & Capital Improvement Program for FY25-26. Motion was seconded by Commissioner Richard King and unanimously approved.

IV. GENERAL MANAGER REPORT

Safety

Mr. Bryant stated the team continues to work very well, and the evidence in our total recordable injury rate (TRIR) which is now down to 0.16, which is very impressive. There are no significant safety incidents to bring to the Commission's attention. He stated the reduction of our total recordable injury rate is evidence of our continued focus on safety and how we are every day looking at how we can do our jobs safer than we did the day before, with the focus of not letting up even with the downturn in the indicator.

People

Mr. Bryant stated we completed the employee engagement survey, and he received the results yesterday. Staff will start the process of doing the deep dive and obtaining the debrief of the 40question Gallup survey over the next coming weeks. The survey results and action plans will be discussed among our team to ensure that we do the best that we can as leadership, as well as all employees to continue to drive our employee engagement through the levels that will continue to result in optimal performance to our customers as we look to work and deliver fantastic results for PWC.

Mr. Bryant also stated the PWC Picnic, held on May 3rd was a resounding success. He thanked the entire committee (HR, CCR and other team members) who made the picnic a tremendous success. He believes all who attended had a great time, employees, retirees, family members and friends enjoyed that event, which was quite memorable. He stated there will be a communication going out later today or this week relative to some of the pictures of the photos that were taken during that event.

Community Engagement

Mr. Bryant stated we are coming up on the heels of another great PWC Day that was held last week here focusing on the water wastewater side of our business. We entertained leaders from Fayetteville and all over Cumberland County as we showed them the inner workings of our business and how we deliver our water and wastewater services. He thanked the CCR team and the leadership of the water wastewater division that helped make this a tremendous success for those participants in our PWC Day.

Running the Business

We have received feedback from EPA region four in the DEQ that our 2024 water related projects funding is no longer being reviewed, so very happy to see that confirmation. He stated we are working to get the same confirmation from the DOE and the electric side of the DEQ to have those projects that have been delayed released as well. So again, we are really working to stay focused on not only going after the funds previously awarded but also continuing to look forward to new state, federal grants and funding opportunities to help us offset some of our capital expenditures.

In response to Commissioner King's question. Mr. Bryant stated the Gallup survey results will be held in closed session.

Commissioner Porter commented on PWC's emphasis on safety and a recent Duke incident up north. He appreciates the continued focus on safety.

V. COMMISSIONER/LIAISON COMMENTS

Assistant City Manager Lindsay

ACM Lindsay stated Council Member Thompson was not able to be here in person due to a conflict of interest

County Chairman Kirk deViere

Chairman deViere stated for situational awareness, they will be starting their budget process, much like PWC is going through right now. On May 22^{nd,} their County Manager will present his budget and then the commissioners will begin their deliberations for a final budget sometime in June. That is when they will set the tax rate. He stated you will see the preliminary tax rate from the manager. And then the county commissioners move, adjust or keep it the same. He also stated he appreciates the work with our staffs as we continue to look at the water situation across our oommunity,

Commissioner Donald Porter

Commissioner Donald Porter stated other than safety, he would like to again commend the CEO on the picnic. It was well done. He got out there a little bit late, but he did not get there too late to walk by that catfish. He stated it reminds him of Organization Day and the military. Just to see the families enjoying. It was a great event.

Commissioner Richard King

Commended staff on the budget presentation. He read over the slides and understands them. The presentation was very well done. He also appreciated Commissioner Donald Porter's question regarding "what keeps you up at night."

He liked seeing the reduction on most everything, as he likes to see us (PWC) being lean and mean, although he does not want that to cause a lapse in coverage, which he knows it will not. Overall, it was a good job.

Commissioner Christopher Davis

SUBJECT: Recommendation to Declare Personal Property as Surplus and Authorize Sale of Property by Sealed Bid

Fayetteville Public Works Commission ("PWC") owns equipment that is identified in our inventory as "Non-Stock, Grid Bridge Pad Mount Transformers, 150 KVA, totaling 3 each" (the "Equipment"). Staff has determined that PWC no longer has any use for the Equipment, that the Equipment should be sold at this time, and that the estimated value of the Equipment is at least thirty thousand dollars (\$30,000.00). Staff, therefore, requests that the Commission declare this Equipment to be surplus and authorize the sale of the Equipment via sealed bid in accordance with G.S. 160A-268.

Comments: Staff believes that the Equipment is surplus and requests that the Equipment be declared surplus and authorized for sealed bid.

RESOLUTION TO DECLARE PERSONAL PROPERTY AS SURPLUS AND AUTHORIZE SALE OF PROPERTY BY SEALED BID

WHEREAS, the Fayetteville Public Works Commission ("PWC") owns equipment that is identified in inventory as "Non-Stock, Grid Bridge Pad Mount Transformers, 150 KVA, totaling 3 each" (which transformers are collectively the "Equipment");

WHEREAS, the Commissioners have determined that PWC has no use for the Equipment at this time, and the Commissioners believes that the value of the Equipment is at least thirty thousand dollars (\$30,000.00); and

WHEREAS, North Carolina General Statute §160A-268 permits PWC to sell personal property with an estimated value of \$30,000 or more by sealed bid upon approval by the Commissioners and after publication of a notice announcing the invitation to bid.

THEREFORE, LET IT BE RESOLVED BY THE COMMISSIONERS OF THE FAYETTEVILLE PUBLIC WORKS COMMISSION THAT:

1. The Equipment is surplus and its sale by sealed bid is authorized.

2. Following the adoption of this Resolution, Commission staff shall publish notice of the sale in a newspaper of general circulation within Cumberland County, North Carolina, at least seven (7) days before bid opening. The notice shall summarize the contents of this Resolution and specify the date, time, and location of the public bid opening.

3. PWC reserves the right to withdraw the Equipment from sale at any time and the right to reject all bids.

4. After the public bid opening, the Commissioners will award the sale to the highest responsible bidder at its next regular meeting, unless all bids are rejected, or the Equipment is withdrawn from sale.

5. PWC's Chief Financial Officer is hereby authorized to execute a bill of sale on behalf of PWC to transfer title to the winning bidder.

SUBJECT: Water Resources CIP Planning Summary - Ten Years

For Commission action at the May 28th meeting, attached is resolution No. PWC2025.20 to formally approve Fiscal Years 2026-2035 ten-year Capital Improvement Program (CIP) plan for Water Resources. This resolution will enhance PWC's scoring in the evaluation of State Revolving Loan applications.

As part of the NC Division of Water Infrastructure (DWI) evaluation process for projects requesting loan and grant funding through the State Revolving Fund (SRF) Program, DWI requests that applicants provide an adopted ten-year CIP plan for water/wastewater projects. Currently, and consistent with the Budget and Fiscal Control Act (and specifically GS159-13(a)), the Commission only approves current year's expenditures in the Budget Ordinance. However, as part of the budget presentation and discussion with the Commission, staff does include a ten-year CIP plan.

In order to comply with the informational request of the DWI, and to thus improve PWC's standing in the evaluation process under the SRF Program, approval of this resolution is needed for inclusion in any upcoming loan applications by PWC and their review by DWI.

Staff recommends that the Commissioners adopt, without financial commitment, resolution No. PWC2025.20 which is consistent with the CIP Budget that was presented to the Commission on May 14, 2025 and is anticipated to be approved on May 28, 2025 (Ordinance PWCORD2025-08).

RESOLUTION OF THE FAYETTEVILLE PUBLIC WORKS COMMISSION TO ADOPT THE TEN-YEAR CAPITAL IMPROVEMENT PROGRAM PLAN FOR FISCAL YEARS 2026-2035

WHEREAS, the Fayetteville Public Works Commission (hereinafter, the "Commission") continues to adhere to a high standard of professional financial management to ensure adequate public infrastructure, economic development and services for its citizens; and

WHEREAS, the Commission has need for an adopted ten-year Capital Improvement Program (CIP) plan for water/wastewater projects in the attached Exhibit A; and

WHEREAS, the Commission recognizes the Capital Improvement Program plan to be an important management tool that coordinates community infrastructure needs with the financial capacity of PWC; and

WHEREAS, the Commission prepared a ten-year Capital Improvement Program plan which balances projected revenues and expenditures based on a financial forecast and assumptions with regard to PWC's long-range financial capacity and includes cost estimates for projects scheduled for at least the first five years; and

WHEREAS, the Commission will update the ten-year Capital Improvement Program plan annually as part of PWC's regular budget process.

NOW THEREFORE BE IT RESOLVED BY THE COMMISSION THAT the tenyear Capital Improvement Program plan for Fiscal Years 2026-2035 is hereby adopted as the Commission's long-range Capital Improvement Program plan.

Adopted this 28th day of May, 2025.
