Bid Addendum

PWC Number: PWC2526081

Bid Title: Water Treatment and Water Reclamation Chemicals Annual Contract

Bid Opening Date and Time: April 21, 2026 @ 3:00 p.m.

Addendum Number: 3

Addendum Date: April 17, 2026

Procurement Advisor: *Shelby Lesane*
procurement@faypwc.com

1. Addenda acknowledgement is required within the IFB Bid Pricing Form.
2. The solicitation is hereby modified as follows:
 - M1. ATTACHMENT D: BID FORM:** Bid Form has been updated and replaced, as attached to this addendum No. 1.
3. Following are questions received about the solicitation and the SME's answers to the questions.
 - Q1.** I am following up on an addendum answer regarding powdered activated carbon. On Page 15 of the bid specifications point 3 states that Activated Carbon to be packaged in 50-pound (50#) bags.

Again, on Page 28 of the bid form product C Powdered Activated Carbon lists the following under the product (packaged in 50lb. bags). However, in Addendum 1 Answer A7 it states "Bidders should bid for Powdered Activated Carbon Slurry and Powdered Activated Carbon dry. The slurry is for delivery to P.O. Hoffer WTP and will consist of full tanker loads with an estimated annual need of 1,100 tons (previous RFB attached). The dry PAC will be for Glenville Lake WTP and the anticipated annual need will only be 20,000 pounds."

Can you please confirm if the 50lb bags will be used, and if so, at which location and quantity. If there are two methods of product delivery will there be an updated bid form stating that and the chance to bid different prices for each?
 - A1.** Reference M1 in this Addendum No.1.
 - Q2.** I'm a bit confused. Theres nowhere to put separate pricing for different packaging (Bulk vs Bags) as we can't price them the same.

It says 1100 Tons of PAC is what you expect to use? It also says 90,000 lb. Can you clarify?
 - A2.** We are not asking for different packing the bid call for packaged in 50lbs, and the estimated total pounds is 90,000.
