

PERMIT RENEWAL REQUEST FORM

Permit Number(s): _____

Project Name: _____

Please upload this completed form, updated utility cover sheet(s), detail sheets, and an updated Specification Checklist to PWC's GeoCivix e-permitting portal (www.faypwc.geocivix/secure) using the "Permit Renewal" application type.

We request that the Authorization(s) to Construct (ATC) for the above referenced project be extended. The Engineer hereby certifies that the project site conditions, and applicable conditions detailed in the permit(s) issued under PWC's Delegated Sewer Collection System and Water Distribution System Permit Program authorized by the City of Fayetteville's Code of Ordinances on behalf of the State of NC Environmental Management Commission have not changed since the project was originally approved. The Engineer further certifies that the project will be constructed in accordance with the current details and specifications and the previously approved engineering reports and plans.

Reason(s) for Extension: _____

Applicant Name

Authorized Signature

Date

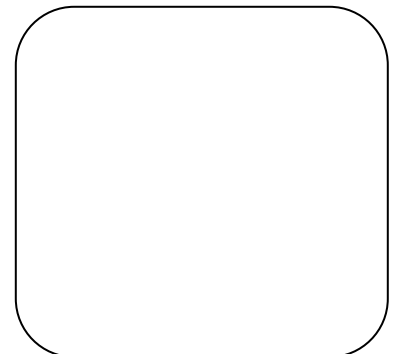

Engineer's Seal, Signature, and Date:

Engineer Name (Print and Date)

Please Indicate Project Status Below:

Construction Start Date: _____

Estimated Utility Construction Completion Date: _____

If the project is currently on hold, please provide reason(s) and anticipated date of re-starting:
